SANCHITHA

Software Trainee

Bengaluru, Karnataka | (+91) 9036539085 | sanchugowda24@gmail.com | LinkedIn | GitHub

PROFESSIONAL SUMMARY

Software Trainee with AI/ML engineering foundation and hands-on experience in Software development, REST APIs, testing and debugging with an understanding of infrastructure and cloud concepts. Comfortable across the stack with integrating AI capabilities (Gemini API) into working products. Looking for a software role where I can build production features end-to-end.

EXPERIENCE

Software Trainee | 3NEX Global India Pvt Ltd, Bengaluru *Feb 2026 – Oct 2026*

- Contribute to e-commerce product workflows, website content management, and admin operations supporting day-to-day business processes.
- Support UI enhancements, product listings, and digital content updates that improve platform usability and customer experience.

Java Full Stack Development Trainee | Jspiders Pvt Ltd, Bengaluru *Jun 2025 – Dec 2025*

- Developed backend applications using Core Java, JDBC, Oracle SQL, and Spring Boot, including RESTful APIs for data management.
- Built dynamic, reusable frontend components in React.js for interactive user interfaces.

PROJECTS

DebugMind AI — AI-Powered Software Quality Copilot

Technologies: *Java, Spring Boot, React.js, MySQL, Gemini API*

- Built a hybrid AI-assisted application for code quality, bug, and security analysis.
- Developed REST APIs and rule-based checks integrated with Gemini AI to generate code review insights and intelligent test case suggestions.

Employee Task Tracker

Technologies: *Java, Spring Boot, MySQL, React.js*

- Developed a task management system to assign, track, and monitor employee tasks.
- Built REST APIs and dashboard features to track task progress in real time.

Lightweight Detection Model for Waste Monitoring

Technologies: *Deep Learning, CNN, YOLOv5*

- Developed a lightweight YOLOv5-based deep learning model for real-time waste detection and classification on resource-constrained devices.
- Recognized with a department Best Project Award for a scalable, cost-effective, socially impactful approach to smart waste management.

TECHNICAL SKILLS

Programming: Java, SQL, JavaScript, Python(Basic)

Cloud: Infrastructure as Code (IaC) Concepts, Cloud Computing
Databases & Tools: Git/GitHub, MySQL, Oracle SQL, Postman
AI/ML: Machine Learning, Deep Learning, Prompt Engineering, Gemini API

Testing: Manual Testing, Functional Testing, Debugging

EDUCATION

Canara Engineering College, Mangaluru — B.E. in AI & ML, CGPA: 8.45 *2021 – 2025*

PRN Amratha Bharathi PU College — Class XII, 85% *2019 – 2021*

Jnanavahini English Medium High School — Class X, 89.61% *2018 – 2019*

CERTIFICATIONS

- Google's Introduction to AI — Coursera
- Java, SQL (Basics) & SQL (Advanced) — HackerRank
- Postman API Fundamentals — IEEE Women in Engineering Association
- Claude Courses — Anthropic Academy (Claude fundamentals, AI agents, APIs & AI fluency)

ACHIEVEMENTS

- Best Project Award — Department Best Project, ranked 5th in college innovation showcase.
- Academic Excellence — Top 5% performer in department.
